

**WE MAKE
TECHNOLOGY
USABLE**

WHAT WE ARE LOOKING FOR

TECHNICAL WRITER / INFORMATION ENGINEER MALMÖ - LUND, SWEDEN

Do you enjoy the challenge of describing complex technical structures in a clear and concise way?

Do you have the ability to challenge content and structure of technical information for improved readability and understanding?

Do you have a feel for language style and information flow?

If developing technical information for cutting-edge products appeals to you, you can become part of diverse and motivated teams working in an intense product development environment.

REQUIREMENTS

Basic qualifications

- Technical background: MSc, BSc, or similar
- Excellent Swedish and English skills, both written and spoken
- Work experience in technical writing or technical information area
- Work experience within the telecom or industry sector

Preferred additional skills, personal traits and experience

- Good ability in multi-tasking and independent problem solving
- Analytical, thorough, communicative, and result-oriented
- University degree in mechanical engineering, electrical engineering, technical information and documentation, or similar

WE OFFER

Work within diverse and motivated teams in an intense product development environment and with cutting-edge products.
